

Fifth International Conference on Recent Advances in Nonlinear Mechanics
October 22 – 25, 2021, Hangzhou, China

First Announcement and Call for Papers

The fifth International Conference on Recent Advances in Nonlinear Mechanics (RANM 2021) will be held in Hangzhou, China during October 22 – 25, 2021. The objective of RANM 2021 is to provide scientists, researchers and engineers with an international platform to exchange recent worldwide research and application achievements on nonlinear dynamics. The RANM 2021 is organized as an on-site conference at this moment. However, the worldwide governmental restrictions on traveling, gathering, and meeting are applied to prevent the spread of COVID-19 virus. Therefore, the mixed conference mode (in person and on-line) would be a choice depending on the situation in the end of this October.

TOPICS

All fundamental and applied problems involving nonlinearities or nonlinear interactions are welcome. The conference topics include, but not limited to

- Solid mechanics and materials
- Dynamics, vibration and control
- Fluid mechanics and flows
- Nonlinear elasticity
- Complex dynamics and chaos
- Turbulence and shocks in fluid
- Granular materials and composite
- Numerical and analytical methods
- Experimental methods

ABSTRACTS AND PAPERS

An abstract of about 500 words including the title and the authors' names, address, phone/fax number and e-mail address should be submitted to the Secretariat of RANM 2021 or through the official web of the conference (<http://www.ranm2021.com/>). Decision on the submitted abstract will be sent to the authors. The detailed instructions for preparations of 4-page papers and poster presentations will be given on the conference website. The 4-page papers (not more and not less) will be published in the Proceedings. Selected papers will be invited to be submitted to peer-review journals, e.g., International Journal of Mechanical Sciences.
